

Rejuvenate Old Sprayed On Bed Liners

09/29/2009 - GatorHyde Corp, Wagoner, OK, introduces a fast, economical way to rejuvenate old spray-on bed liners, regardless of the manufacturer. NEW GatorGloss II is a plural component, aliphatic polyurea spray that can be applied to the surface using an airless sprayer, cup gun or even rolled down. Extremely color stable, GatorGloss II can also be applied to new sprayed on bed liners to help maintain the glossy new look. For more information go to www.gatorhyde.com.
